

PRE-PAY PERMANENT RESIDENTIAL SERVICE (Rate 201)

Effective November 1, 2025

I. AVAILABILITY

Available to Members of the Cooperative located on its lines for all permanent residential dwellings which will be utilized for only the purpose of single-family residential occupancy and is subject to the established rules and regulations of the Cooperative. Also available to Members with current service under this rate for facilities directly related to this dwelling including, but not limited to, barns, shops, residential water wells, and storage buildings.

II. ALTERATION OF RATE

This Tariff, or any part, therefore, may be revised, amended, or otherwise changed from time to time by the Cooperative's Board of Directors.

III. TYPE OF SERVICE

Single-phase, 60 cycles, at available secondary voltages.

IV. PROTECTION

Adequate overcurrent protection of all motors shall be the responsibility of the Member. This protection shall be consistent with National Electrical Code and any requirements of local government agencies having jurisdiction over Member's premises. Member shall not install and operate equipment in such a manner that creates adverse effects and disturbances on the Cooperative's system in excess of cooperative, industry, and regulatory limits and standards. Single-phase motors larger than 10 horsepower require engineering analysis and approval by the Cooperative.

V. NET RATE

Daily Service Charge	\$1.15 per Day
Energy Charge (All kWh)	\$0.11202 per kWh

VI. WHOLESALE POWER ADJUSTMENT

The above charges shall be increased or decreased as determined under the Wholesale Power Adjustment (WPA).

VI. DISTRIBUTED GENERATION (DG) CLAUSE

For accounts that have an interconnected distributed generation system attached to the Association's electrical distribution system, there shall be added to the total of all charges under this rate schedule an amount as determined in accordance with the Association's Distributed Generation Rider.

VII. ENVIRONMENTAL COMPLIANCE CHARGE

The Environmental Compliance Charge will be assessed on all energy (kWh) usage during each billing period. The Environmental Compliance Charge recovers actual and forecast costs of complying with local, state and federal regulations and is subject to change.
